2022 West Federation CHRIE Virtual Conference
February 10, 2022

PURPOSE OF THE RESEARCH HACKATHON

West Federation CHRIE (WFCHRIE) is excited to invite faculty and Ph.D. students (ABD required) to participate in the 2022 Research Hackathon. Collaborating with leading hospitality journals, we invite participants across two tracks: educational research (sponsored by *JHTE*) and scientific research (sponsored by *JHTR*). The goal of the Research Hackathon is to bring together researchers with diverse skills and knowledge to maximize collaboration and create novel scientific research.

OVERVIEW OF THE RESEARCH HACKATHON

The format is an intensive one-day hackathon where teams of researchers present a research proposal developed prior to the hackathon.

Prior to the Research Hackathon,

- Applicants must select one track to participate: educational research or scientific research.
- Applicants will be assigned to a team consisting of members with complementary skills/expertise, and preferred research areas.
- Teams will collaborate on a research topic of their choice and develop a hackathon proposal under the guidance of an experienced mentor.

On the day of the Research Hackathon,

- The WFCHRIE Research Hackathon will take place during the 2022 WFCHRIE Virtual Conference (February 10, 2022).
- During the hackathon, teams will pitch the proposal and receive constructive feedback from the panel consisting of sponsoring journal editors and top researchers.
- Teams with a highly rated hackathon proposal will be invited to submit their completed manuscript for a fast-tracked review process and a possible publication at *JHTE* or *JHTR*.

* Please note that the participation in Research Hackathon does not guarantee that the manuscript will be accepted by the supporting journals; manuscripts must meet that respective journal's acceptance criteria.

RESEARCH HACKATHON TIMELINE

Date	Tasks
Nov 16	Announcement
Dec 12	Application due
Jan 5	Notification of teams/research topics/mentors
Jan 14	Research Hackathon Orientation via zoom
Feb 1	Proposal submission (up to two pages)
Feb 10	Virtual presentation (WFCHRIE Conference)

Applications are now being accepted until December 12, 2021. Those accepted into the Research Hackathon will be notified of their team members, mentor, and research area on January 5, 2022. Also, the participants are highly encouraged to attend an orientation via zoom on January 14, 2022, to meet their Research Hackathon mentor and team members.

Each team will need to protect roughly 2 weeks of time in January to submit a proposal describing their Hackathon ideas based on the given research topic by February 1, 2022. It is about creating something new with new collaborators and new ideas. For this reason, completed papers will NOT be accepted.

HOW TO REGISTER YOUR PARTICIPATION

This program is for researchers who want to work on brainstorming and developing a new research idea in teams. To participate in the WFCHRIE Research Hackathon supported by *JHTE* and *JHTR*, submit your application using the link below:
